

CS 440 Meeting Minutes

Group – 5 Date: 16 February 2023 Time: 5 pm Duration: 30 mins

Present, on time: Arijus Trakymas, Sharva Thakur, Russel Tjahjadi, Mohammad Zaid

Present, not on time: NA

Absent: NA

Synopsis: We are continuing to develop the web application and we used the information gathered from our previous weeks to start conceptualize the structure of how the application should work. We are in progress of setting up the authentication part of the application so users can properly login and signup.

Recent Accomplishments: Sharva finished developing the login screen. Arijus worked on setting up the backend authentication for the application using Firebase. Zaid worked on building the user information input screen. Russel worked on implementing the signup screen.

Current Activities: Zaid is working on finishing the user information input page setup so the application can move forward to show the user the main features of the application. Arijus and Shava are working on developing the home screen for the application implementing both frontend and backend. Russel is working on finishing the signup screen for the application.

Action Items: Russel will work on the finishing touches for the login screen, and ensure the backend properly works so that returning users can log in to the application. Sharva and Arijus will work on completing the frontend part of the homescreen. Zaid will finish the user information input page of the application.
