

## CS 440 Meeting Minutes

Group 5 Date: Sat Feb 4 Time: 11 am Duration: 30 min

Present, on time: Arijus Trakymas, Sharva Thakur, Russel Tjahjadi, Mohammad Zaid

Present, not on time: NA

Absent: NA

---

Synopsis: We gathered more information about what tech stack to use for this application, and made a decision on what technologies we are going to use for development. We begun researching how to implement user accounts.

Recent Accomplishments: Arijus and Sharva looked through different backend and frontend technologies and made a decision on which will best fit our needs. Zaid researched the potential clients for this application. Russel brainstormed different ideas for the UI.

Current Activities: Arijus and Sharva will interview and talk to a few people about how they would like the application and what features they would like. Also, Sharva and Arijus will set up the project and get it ready for development. Zaid and Russel would start with the initial design and a rough idea of what the project would look like.

Action Items: Arijus will start set up the project repository and get get firebase and flutter installed. Sharva will start by making the signup screen. Russel will start with the login screen. Zaid will start with the homescreen.
